Subject: RE: TPC - South 4 Group Fire - Request for Assistance

Thank you Sir. We are in coordinations with Unified Command/CTEH and PIO who is reaching out to the schools today. We will plan to meet them as their schedule allows and address any public health questions they might have concerning the incident. We understand the children are out of school yesterday and today, and plan to be back at school Monday. The team will check in with the EOC prior to departure and brief out upon return.

Subject: Fwd: TPC - South 4 Group Fire - Request for Assistance

Good morning Patrick,

Thanks again for mobilizing to support EPA and Unified Command. As part of this request below, this support includes the local schools that neighbor the facility and in the community.

VR,
Adam

Subject: TPC - South 4 Group Fire - Request for Assistance

Good evening Evelyn and Patrick,

On behalf of EPA, I'd like to request an onsite representative to join our Unified Command and assist with reviewing data from the incident on November 27 to present and communicating the concerns to the community. Data will include air monitoring results, surface water sampling results, potentially drinking water sample results, potential asbestos sampling, etc.

We'd like to request support as soon as possible, and I look forward to working with you.

For details (address, etc) of the site incident and updates, please see the EPA website (www.response.epa.gov/south4groupfire).

The Command Post-EOC is presently at the Holiday Inn at I-10 and Walden Road in Beaumont, TX. I expect that the Command Post-EOC will be moving in the next few days. I recommend anyone mobilizing reach out to me directly.

Thanks in advance. If you have any questions, please do not hesitate.

VR,
Adam
